TODAY

Avoid the
empty glass
syndrome.

Increase
customer
satisfaction
with just the
simple push
of a button.

Press for service
the **perfect solution!**

Press for Service

If you could, with just a press of a button, increase your drink sales by up to 25%, make your customers happier and reduce your staff costs - would you press it?

Give your customers the best service possible.

When your customer requires service, they just press a button on their table. The wait staff get the message on a large easy to see display which tells them which table requires service.

Operate to a new level of proficiency and customer service.

- Lets your wait staff know exactly where and when they are needed most
- Serve your customers only when they want service
- Optimise staff's time with less stress
- Improve the customer's experience
- Improve customer satisfaction
- Better word of mouth growth
- Increase your table turnover
- Generate more patrons
- And best of all ...

increase your profits !!!

Company Profile

In 2004, **Hyundai Health Products Australia** was formed with a vision to assist the Australian population to purchase the latest innovative products that would be of benefit to themselves while being environmentally responsible. The first product released was the electronic bidet toilet seat.

At first Australians in general weren't overly familiar with bidets and those that were, usually had only seen the old-fashioned free-standing porcelain bidet. It wasn't unless travelling that one might have seen the modern alternatives... alternatives that people from Europe, Asia and the USA had been using for years. The feature that made this product, also known as a paperless toilet seat, a most sought after bathroom accessory was that it was easy to fit to an existing toilet. With just the push of a button, the bidet toilet will automatically clean you thoroughly and then dry you with a gentle stream of warm air thus providing a cleaner, healthier and eco friendly alternative to toilet paper.

By 2006, the company was supplying thousands of bidets each year to retail outlets.

In 2007, as the company had expanded to New Zealand and Oceania, the name was shortened to **Hyundai Health Products**.

In 2008, the company was now supplying 6 models. Wide spread acceptance for the electronic bidet toilet seat was growing due to overseas visitor demands and enquiries were received from hotels, resorts and casinos for the use and comfort of their health conscious clientele. The product was also being installed in medical centres and hospitals.

With the success of our marketing strategy for the electronic bidet many companies began asking us to introduce their products into Australia and New Zealand. Four new and varied products were added in 2008 alone.

In 2009, to better reflect the changes within our expanding company and the diverse range of product now being supplied, a sister company, **Tomorrow's Products Today**, was set up to make available leading edge products developed throughout the world. A number of these products were brought in for exhaustive testing and market research before making them available for sale. All have passed the Australian standards required.

Now in 2010 **Tomorrow's Products Today** supplies exclusively some of the most innovative products available from **Hyundai, Coway Bidet, Safetbath, ECO, and Press for Service** to its network of distributors throughout Australia, New Zealand and Oceania.

Tomorrow's Products Today provides full warranty support for all of its products with factory trained technicians and extended warranty packages available.

Tomorrow's Products Today will continue to seek out these new and innovative products and you can take comfort that we will always provide you with the highest standards of product quality, service and warranty. Accordingly, we only sell our products through companies that share our vision for, as our name suggests, supplying tomorrow's products today.

Please call us on **(07) 5528 2299** if you would like to join our exclusive group of resellers and if there is something you'd like to see on the Australian market next, feel free to tell us what it is and we will do our best to source it for you.
