- Assists in the reduction of the effects of menopause

Now! At Last! Your own personal sauna

Sauna

A far-infrared personal sauna providing you all the benefits of a steam sauna without the need for the expensive outlay for a dedicated sauna room.

- Wheels for easy transportability - have a sauna while watching TV in your lounge room, watch the sunset on the balcony, anywhere you want
- Height adjustable head rest
- Easy access with folding cover and side door
- One button operation
- Built-in safety features
- Exceptional build quality using eco-friendly plantation timbers
- Hand made by professional, dedicated craftsmen using only the finest products available
- Ergonomically designed seat for your comfort

Company Profile

In 2004, **Hyundai Health Products Australia** was formed with a vision to assist the Australian population to purchase the latest innovative products that would be of benefit to themselves while being environmentally responsible. The first product released was the electronic bidet toilet seat.

At first Australians in general weren't overly familiar with bidets and those that were, usually had only seen the old-fashioned free-standing porcelain bidet. It wasn't unless travelling that one might have seen the modern alternatives... alternatives that people from Europe, Asia and the USA had been using for years. The feature that made this product, also known as a paperless toilet seat, a most sought after bathroom accessory was that it was easy to fit to an existing toilet. With just the push of a button, the bidet toilet will automatically clean you thoroughly and then dry you with a gentle stream of warm air thus providing a cleaner, healthier and eco friendly alternative to toilet paper.

By 2006, the company was supplying thousands of bidets each year to retail outlets.

In 2007, as the company had expanded to New Zealand and Oceania, the name was shortened to **Hyundai Health Products**.

In 2008, the company was now supplying 6 models. Wide spread acceptance for the electronic bidet toilet seat was growing due to overseas visitor demands and enquiries were received from hotels, resorts and casinos for the use and comfort of their health conscious clientele. The product was also being installed in medical centres and hospitals.

With the success of our marketing strategy for the electronic bidet many companies began asking us to introduce their products into Australia and New Zealand. Four new and varied products were added in 2008 alone.

In 2009, to better reflect the changes within our expanding company and the diverse range of product now being supplied, a sister company, **Tomorrow's Products Today**, was set up to make available leading edge products developed throughout the world. A number of these products were brought in for exhaustive testing and market research before making them available for sale. All have passed the Australian standards required.

Now in 2010 **Tomorrow's Products Today** supplies exclusively some of the most innovative products available from **Hyundai, Coway Bidet, Safetbath, ECO, and Press for Service** to its network of distributors throughout Australia, New Zealand and Oceania.

Tomorrow's Products Today provides full warranty support for all of its products with factory trained technicians and extended warranty packages available.

Tomorrow's Products Today will continue to seek out these new and innovative products and you can take comfort that we will always provide you with the highest standards of product quality, service and warranty. Accordingly, we only sell our products through companies that share our vision for, as our name suggests, supplying tomorrow's products today.

Please call us on **(07) 5528 2299** if you would like to join our exclusive group of resellers and if there is something you'd like to see on the Australian market next, feel free to tell us what it is and we will do our best to source it for you.
